A three-dimensional collectible masterpiece of light, sound and artistry

As the fastest hunk of junk in the galaxy, there is no ship more synonymous with interstellar adventure than the YT-1300f Corellian™ freighter *Millennium Falcon*™. Piloted by intrepid scoundrel Han Solo™ and his first mate Chewbacca™, the *Falcon*™ is fast, sleek and infamous. Beneath her shabby exterior, she's a souped up, star-blazing troublemaker known as much for her exploits smuggling contraband across the Outer Rim Territories as she is for serving the Rebel Alliance in its conflict against the Empire.

Now, Hawthorne proudly celebrates this legendary ship in a new and exclusive illuminating three-dimensional masterpiece. Presenting the *Star Wars™ Millennium Falcon Illuminating Musical Wall Sculpture*.

Meticulously detailed for superb realism, featuring music and built-in illumination.

What you see is a masterful combination of highly-detailed three-dimensional sculpture and powerful two-dimensional art that produces the stunning effect of the *Millennium Falcon* breaking out of the frame at lightspeed right into your home! This impressively-sized presentation captures every detail of the iconic ship that has thrilled

audiences of all ages for more than 40 years. Set upon a base featuring full-color, action-packed imagery, Rebellion emblem, ship schematics and background information, the *Star Wars Millennium Falcon Illuminating Musical Wall Sculpture* features an illuminating cockpit and six LED stars that slowly change colors and pulsate throughout the star field background. And at the flip of a switch, you'll hear the thrilling *Star Wars* opening theme music. This heirloom-quality masterpiece is a must-have for any true *Star Wars* fan.

Your satisfaction is guaranteed.

You can order this truly unique heirloom-quality collectible with confidence as our best-in-the-business 365-Day money-back guarantee assures your complete satisfaction.
